

## SAFETY BUMPS

5027-90

**Product info**

Safety bumps for camlock couplings

**Applications and characteristics**

Safety Bumps for Camlock couplings. Comfortable handle which makes moving and handling hose easier. The Bump protects the coupling when the hose is dropped or dragged, allows easy closure and opening of the handle without injuring your hand. Available as female on request.

**Product group**

500

**Type**

Cam-Lock
