

HOSECUTTER 2-20 MM

9104-01-19

Product group	0519
Colour	Orange
Description	<p>Hydroscands hose cutter for pneumatic hoses is constructed in a durable lightweight material and has good mechanical strength and abrasion resistance. The blades on the hose cutter are interchangeable and are then sorted as metal. The hose cutter weighs only 34 g and can cut hoses that has dimensions between Ø2-20mm, which means it can handle most dimensions. When cutting a pneumatic hose made out of materials such as PTFE, PA and PU you get straight and clean cuts which is very important for the coupling that the hose should be installed in.</p>
